

Dear Parents,

School Library

Our library has a computerised book lending system. Rather than issue membership cards and numbers, the children's thumb prints are scanned and an 8 digit number generated which the computer stores. The computer matches the number to the print when the child scans his/her thumb prints. **The actual thumb prints are not stored.**

Please complete and return the reply slip below.

Yours sincerely,

Alison Smith
(Headteacher)

I do / do not want my child, name: _____ to
have his/her thumb scanned.

Signed: _____
