

English

In English we will be looking at:

- Fiction—The Arrival by Shaun Tan
- Writing letters from the characters
- Making leaflets
- Reading—making inferences and predictions

Maths

In Maths we will be looking at:

- read, write, order and compare numbers up to 10,000,000 and determine the value of each digit
- solve number and practical problems that involve all of the above
- round any whole number to a required degree of accuracy use negative numbers in context, and calculate intervals across zero

Many Thanks

Mr Hawksworth

Brainwaves

Welcome back to school!

Our first IPC unit this year is Brainwaves . During this unit we will be looking at different parts of the brain and how they work.

Also we will be looking at how we learn and the different attitudes to learning. The unit will also include the importance of global awareness.

Please talk to your child about their learning and support them in looking at issues happening around the world.

Class Information

Year 6 will need their PE kits on a **Monday** and a **Wednesday**.
Spelling rules will be given on a Monday to practise for Friday.
Timestable Rockstar homework will be set on a Monday for completion by Friday.

The children will be receiving new reading books early in the term as part of the accelerated reader scheme.

In the Brainwaves unit we will

- Know about some of the recent evidence and research into the brain and learning
- Know about some of the different areas of the brain and their function
- Understand the different ways that they can learn
- Understand how they can improve their learning and their attitudes to learning
- Understand the importance of cooperation and global awareness in their learning

In PE we will be learning about:

- Football - we will learn the skill of passing, shooting, attacking, defending, dribbling and using open space.

In French we will be recapping:

- Year 3/4 objectives - head, shoulders, knees and feet, parts of the body, lets count to 31, months and clothes.

In Computing we will be learning:

- Lets learn a language - we will be writing lines of code using the computer programme Python.

In RE we will be learning about

Why people use rituals in their lives:

- In this unit children will learn about how rituals are used in both Christianity and Judaism. They will look at the festival of harvest and at some rites of passage.
- Children will have the opportunity to think about why rituals are important and what they mean to those who follow different religions.
- Children can be given the opportunity to consider questions and give views based on ideas covered.

In P.S.H.E we will be learning about:

Being Me in My World - We will be learning about our year ahead, being a global citizen and creating our learning charter.
