

English

In English we will be studying poetry

- Discussing and recording ideas
- Composing and rehearsing sentences orally progressively
- Building a varied and rich vocabulary and an increasing range of sentence structures
- Proposing changes to grammar and vocabulary to improve consistency
- Proof-read for spelling and punctuation errors

Maths

In Maths we will

- Count up and down in hundredths; recognise that hundredths arise when dividing an object by one hundred and dividing tenths by ten
- Recognise and show, using diagrams, families of common equivalent fractions
- Solve problems involving increasingly harder fractions to calculate quantities, and fractions to divide quantities, including non-unit fractions where the answer is a whole number
add and subtract fractions with the same denominator

Many Thanks
Miss Prosser

Shake it!

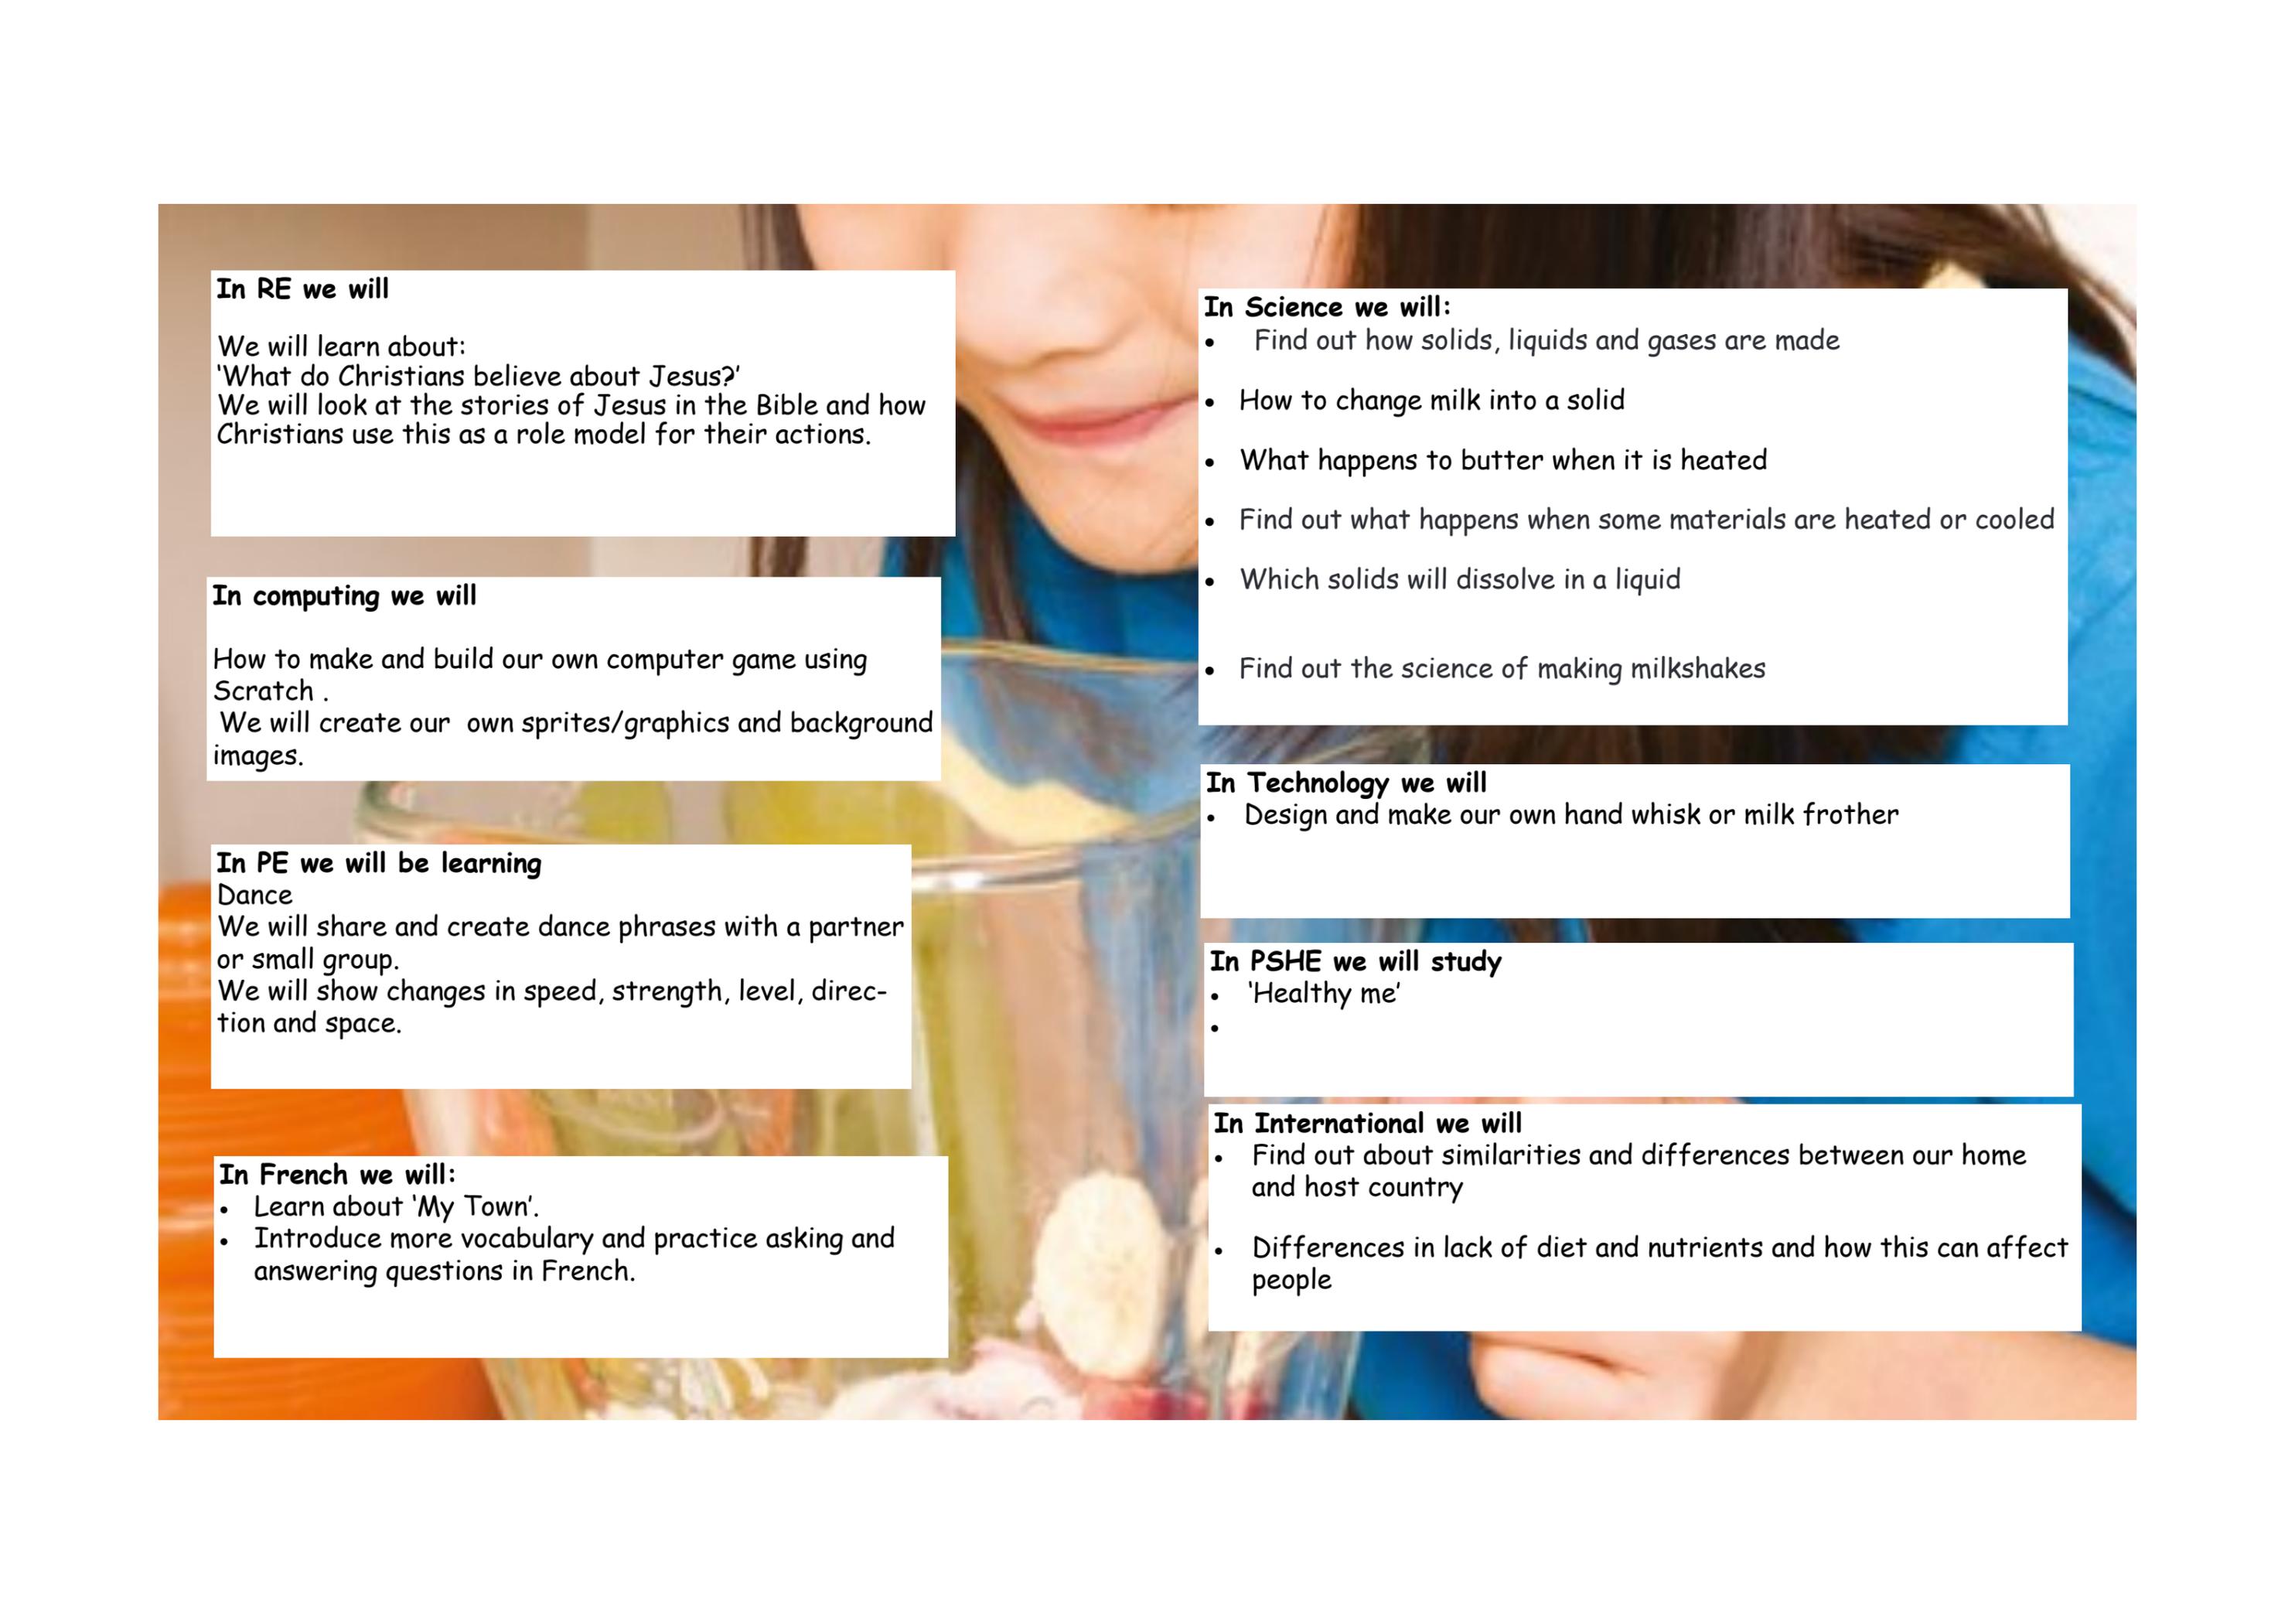

Our new IPC unit is Shake it!

Class Information

Year 4 will need their PE kits on a Wednesday.
Spelling rules will be given on a Monday and are practised and applied throughout the week.

All children have been given a reading book from our new Accelerated Reading scheme. This book needs to be in school each day.

Children need to be reading at home with their reading book signed 3 times per week.
Children can also use Times table Rockstars via the internet on a regular basis to support their times tables learning.

In RE we will

We will learn about:
'What do Christians believe about Jesus?'
We will look at the stories of Jesus in the Bible and how Christians use this as a role model for their actions.

In computing we will

How to make and build our own computer game using Scratch .
We will create our own sprites/graphics and background images.

In PE we will be learning

Dance
We will share and create dance phrases with a partner or small group.
We will show changes in speed, strength, level, direction and space.

In French we will:

- Learn about 'My Town'.
- Introduce more vocabulary and practice asking and answering questions in French.

In Science we will:

- Find out how solids, liquids and gases are made
- How to change milk into a solid
- What happens to butter when it is heated
- Find out what happens when some materials are heated or cooled
- Which solids will dissolve in a liquid
- Find out the science of making milkshakes

In Technology we will

- Design and make our own hand whisk or milk frother

In PSHE we will study

- 'Healthy me'
-

In International we will

- Find out about similarities and differences between our home and host country
- Differences in lack of diet and nutrients and how this can affect people
